FOR IMMEDIATE RELEASE

13th January 2010

INTELLIQ and CAPCON plc Join Forces to Combat Loss

IntelliQ Limited, the leading provider of Forensic Analysis Solutions to the retail sector, today announces the expansion of its network by signing an alliance agreement with Capcon plc, a leading supplier of specialist audit and loss prevention services to hotel, restaurant, licensed and hospitality businesses in the UK, Europe and the Middle East.

Commenting on today's announcement Malcolm Peden, CEO at IntelliQ said: "After successfully implementing our solution into EAT early in 2009 and more recently adding Costa Coffee as a customer we began to look at the restaurant, licensed and hospitality sector as one where we could offer our unique analytical capabilities to help combat loss in a market sector we hadn't looked at before. Capcon have an excellent pedigree in this sector and for us this alliance represents a way for both our organisations to benefit, bringing unparalleled levels of loss analytics and operational experience to our clients".

Bob Dulieu, Operations Director for Capcon, said: "We believe that with our expertise coupled with IntelliQ's leading analytics technology, we can jointly offer an exciting new approach to loss reduction to the licensed trade and hospitality sector. The integration of this technology alongside our investigative and audit services will provide Internal Audit and Finance Departments with a powerful and effective tool to eliminate loss and enhance profits."

- END -
